Dear Mountains Business,

The Blue Mountains Renewable Energy Co-op is developing a proposal to Council to help fund renewable energy for mountains businesses.

The proposal is designed to allow businesses to borrow the cost of solar panels or other environmental upgrades and repay the cost over time via Council rates, at a repayment rate aiming to fund repayments via energy savings.

In order to further develop our proposal, we are asking for help to fill out a short survey, taking just a minute or two. It will help if you have **a recent electricity bill**.
